ALARM CONTROL PANEL

Our wireless alarm control panel is designed to be the centerpiece of a security set up utilizing the latest and most advanced technology to provide complete and total control for end users. Operate on 433MHZ and 868MHZ Frequencies

Our wireless alarm control panel is designed to be the centerpiece of a security set up utilizing the latest and most advanced technology to provide complete and total control for end users. Operate on 433MHZ and 868MHZ Frequencies

433MHZ WIRELESS EXTENDER FOR ALARM SECURITY SYSTEM

- External power supply: DC5V or DC12V;
- Built-in battery: Ni-Hi DC 4.2V. 10 hours backup.
- Receive, detection frequency: 433 MHz
- Learn the maximum number of remote controls: 99
- Learn the maximum number of wireless detectors: 99
- Received detection distance: 100M or so (open ground)
- Send distance: 500M or so (open)

Price: KSh9,999.00 Excl VAT

Our wireless alarm control panel is designed to be the centerpiece of a security set up utilizing the latest and most advanced technology to provide complete and total control for end users. Operate on 433MHZ and 868MHZ Frequencies

SMART WIRELESS WIFI GSM SECURITY TOUCH ALARM SYSTEM KIT

- WIFI/ GSM/ intranet alarm system: APP push, SMS, Voice monitoring, intranet center etc. It supports different alarm channels to ensuring users enjoy the intelligent life.
- The newest smart host: The Ultra HD 4.3-inch IPS color screen, full voice prompts.
- Support 100 detectors renaming, multiple attribute configuration, alarm mode setting.

DOOR/WINDOW SENSORS

We offer reliable wireless magnetic contact door and window sensors that pair with the most popular security systems. Get SMS alerts on intrusion.

We offer reliable wireless magnetic contact door and window sensors that pair with the most popular security systems. Get SMS alerts on intrusion.

WIFI MAGNETIC ALARM DOOR/WINDOW SENSOR

- Real Time Monitor: When you leave home, it will push notification message to you when the door/window opens or closes, so you can open the APP "Smart Life or Tuya Smart" to check in time
- Ultra-Long Standby Time: Built in batteries(AAA battery, battery not included), of which standby time last for 1 years

Price: KSh1,999.00 Excl VAT

We offer reliable wireless magnetic contact door and window sensors that pair with the most popular security systems. Get SMS alerts on intrusion.

WIRELESS DOOR/WINDOW MAGNETIC SENSOR 433MHZ

- Magnetic contact sensor
- Wireless 433MHZ
- Battery powered.

Read More
Price: KSh1,499.00 Excl VAT

We offer reliable wireless magnetic contact door and window sensors that pair with the most popular security systems. Get SMS alerts on intrusion.

WIRELESS 433MHZ MAGNETIC DOOR/WINDOW SENSOR

- Working voltage: 1.5V AAA*1 Alkaline battery
- Frequency: 433Mhz/868Mhz
- Transmitted power : ≤ 10dB
- Transmitting distance: 100m (open area)

Wireless PIR Motion sensors can be connected to an alarm system with a detection range up to 10M with a 110° angle of coverage, and is sensitive to movement from people and pets

WIRELESS 433MHZ PIR MOTION INTELLIGENT SENSOR

- MCU microsystem control
- Pyroelectric infrared detection function
- Support tamper switch
- Support battery low voltage alert function
- Wireless RF transmitter, EV1527; 433Mhz,868Mhz and 2.4GHZ for option
- LED signal light can be turn on/off
- Optional to enable/disable battery low voltage alert function

SIRENS

Wireless Siren produces a loud 105dB alarm sound and strobe light. It can be triggered by any wireless alarm sensors including smoke, motion or door sensors

Wireless Siren produces a loud 105dB alarm sound and strobe light. It can be triggered by any wireless alarm sensors including smoke, motion or door sensors

OUTDOOR WIRELESS SIREN 433MHZ FOR ALARM SECURITY SYSTEM - 120DB

- Wireless connected
- Strobe Light
- Lound 120dB
- Weatherproof.
- Battery backup upto 10 hours.

Price: KSh3,999.00 KSh4,999.00 Excl VAT

Wireless Siren produces a loud 105dB alarm sound and strobe light. It can be triggered by any wireless alarm sensors including smoke, motion or door sensors

OUTDOOR WIRELESS SOLAR STROBE SIREN- 100DB

- Built-in lithium battery powered by solar energy.
- Works as a standalone alarm hub which can control up to 30 wireless detectors and remotes.
- Works as a slave wireless siren when connected with compatible alarm control panels.
- 2 wired zones for 2 wired detectors or wired alarm system.
- Alarm with both loud sound and quick flash strobe.
- Wireless learning code for adding new accessories, convenient, safe and efficient.
- One-key-control function: Remote control to Arm/emergency alarm/disarm

SMOKE SENSOR

Battery powered smoke sensor for use with alarm system panel or stand alone. With inbuilt siren. Very effective for home and business.

Battery powered smoke sensor for use with alarm system panel or stand alone. With inbuilt siren. Very effective for home and business.

WIFI SMART SMOKE DETECTOR WITH SIREN

- High sensitivity smoke detection.
- Dual function push button for silence and test.
- Powered by Tuya APP for alarm notification.
- With manually test, manually mute.
- Sound and light alarm.
- Battery level indication with low voltage alert.

Battery powered smoke sensor for use with alarm system panel or stand alone. With inbuilt siren. Very effective for home and business.

WIRELESS 433MHZ SMOKE DETECTOR WITH SIREN

- The built-in special IC, stable performance, high sensitivity;
- The optical principle smoke measure the room,can accurate detection or fire from the early smoke
- Can simulate alarm test for alarm;
- 9V battery power supply,Surveillance state current less than 10uA,alarm current less than 12mA;
- Voltage alarm function. When the battery voltage is lower than 6.8V,issued a prompt remind users change the battery;
- Alarm volume: 85DB;
