

ACCESS POINTS

Wireless Access Points (WAPs) connect traditional wired networks to wireless clients. Buy at best prices from manufacturers including Ubiquiti, Tp-Link, Cisco

CISCO AIRONET 3802E ACCESS POINT WITH EXTERNAL ANTENNAS

- For organizations paving the way for the new 802.11ac Wave 2 standard, the Cisco Aironet 3802e Access Point is the perfect solution. The access points go beyond getting ready for the new standard, providing the ultimate in flexibility and versatility.
- For large enterprise organizations that rely on Wi-Fi to engage with customers, the 3800 Series is a hands-off product that's intelligent enough to make decisions based on end-device activities and usage.
- This automation allows you to devote time to other pressing matters, secure in the knowledge that your Wi-Fi network is performing to its utmost potential.
