D-LINK

We offer Power over Ethernet (PoE) that allow transmitting both power and data through an Ethernet cable at the same time from manufactuers including Hasivo, Tp-link and D-link

D-LINK DGS-1210-52MP GIGABIT POE SMART SWITCH

- With advanced Layer 2 management features, and Layer 3 static routing , D-Link's DGS-1210 Smart+ Managed Gigabit Switches provide a cost-efficient and flexible solution for expanding any business network.
- The D-Link DGS-1210-52MP Gigabit PoE Smart Switch has advanced network management options, accessible via Compact CLI or the Web-based UI, that equip your business with network capabilities such as VLANs, multiple spanning tree protocol (MSTP), link aggregation (LACP), static routing, dual software images, and dual configuration files.
- The D-Link DGS-1210-52MP Gigabit PoE Smart Switch includes a range of high power budget PoE-enabled switches for business looking to power larger deployments of VoIP phones, wireless access points or network cameras

We offer Power over Ethernet (PoE) that allow transmitting both power and data through an Ethernet cable at the same time from manufactuers including Hasivo, Tp-link and D-link

D-LINK DGS-1210-28P GIGABIT POE SMART SWITCH

- The DGS-1210 Smart+ family has advanced network management options, accessible via Compact CLI or the Web-based UI, that equip your business with network capabilities such as VLANs, multiple spanning tree protocol (MSTP), link aggregation (LACP), static routing, dual software images, and dual configuration files.
- With advanced Layer 2 management features, and Layer 3 static routing , D-Link's DGS-1210 Smart+ Managed Gigabit Switches provide a cost-efficient and flexible solution for expanding any business network.
- Use fibre uplinks to connect across longer distances, like factory lines and university campuses, using lightweight, secure, and energy-efficient fibre optic cabling that's immune to interference and which has access to higher throughput to protect the future

demands of your business network.
- The DGS-1210 Smart+ Series includes a range of high power budget PoE-enabled switches for business looking to power larger deployments of VoIP phones, wireless access points or network cameras.

Discover the full range of network switches from D-Link, Hewlett Packard, Cisco and TP-Link at great prices. Speed up your network connection with an Ethernet switch.

D-LINK DGS-1100-08P 8-PORT GIGABIT POE SMART SWITCH

- DGS-1100 Smart Switch Series provides an affordable solution for environments that require simple network management.
- The DGS-1100's web user interface is an easy way to manage Layer 2 features, such as VLANs, Spanning Tree Protocol (STP), link aggregation (static).
- With powerful security features like IGMP snooping, Static MAC, and Storm Control, the DGS-1100 Smart family is a versatile solution for environments that require easy to deploy and easy to configure solutions without added complexities.

D-LINK DGS-108 8-PORT GIGABIT UNMANAGED SWITCH

- Plug-and-play makes it easy to instantly create a network connected to the internet, without fiddling with any configurations whatsoever.
- Gigabit Ethernet transfer speeds make it ideal for transferring files quickly and online gaming.
- The switch features QoS, which organizes and prioritizes time-sensitive and important data for efficient delivery, allowing for smooth streaming media, VoIP calling, and online gaming.
- The D-Link Cable Diagnostics Function enables users to be instantly aware of cable conditions through the LED display on the front panel.

D-LINK DGS-1024D 24-PORT UNMANAGED GIGABIT SWITCH

- The DGS-1024D switches bring the speed of Gigabit Ethernet to all ports for a truly high-speed network.
- The DGS-1024D switches incorporate several advanced features to help simplify and improve network management and efficiency.
- In addition, Storm Control and Port Isolation mitigate the effects of broadcast storms caused by rogue software and malware, which can propagate across the network and bring communication to a standstill.

D-LINK DES⬜1024D 24⬜PORT FAST ETHERNET UNMANAGED DESKTOP SWITCH

- The D-Link DES-1024D 24-Port Fast Ethernet Unmanaged Desktop Switch offers an economical way for SOHO and small to medium businesses (SMB) to benefit from high-speed networking.
- The DES-1024D switch helps you conserve energy through IEEE802.3az EEE, which works when both the switch and its link partner are EEE-compliant devices.
- The DES-1024D switch uses recyclable packaging that helps reduce waste, complying with the WEEE directive. It's innovatively designed to run cool and quiet without sacrificing performance.
